

# Process Equipment & Controls

A state-of-the-art manufacturing facility and headquarters for PEC in Covington, GA, this design-build project features insulated metal panels that replicate the appearance of tilt-up concrete, providing both durability and aesthetic appeal. The facility includes a large warehouse space, modern offices on a second-floor mezzanine, and a striking storefront glass entryway. Our commitment to raising standards and elevating experiences ensures that PEC's new headquarters surpasses expectations and meets the functional and operational needs of their growing business.
